No...279.....// Date:- 25/1/24

It is informed to all the students that, the Department of Geology is organizing "World Wetland Day" on February 2nd, 2024 as per the agenda given below in Room 22 A of the New Building. This event is not to be missed as it will feature a competition on "Why and How to Conserve Wetlands?"

All the students are encouraged to participate in this seminar to learn more about conservation efforts and have the opportunity to win cash prizes and certificates.

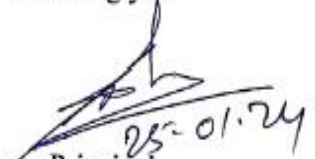

As such, please circulate this notice to all students and make sure they mark their calendars. Thank you for your attention and we hope to see you there!

N:B:- To register for this seminar, please scan the QR code mentioned below.

Time	Programme
2.30 P.M-3.00 P.M	Inaugural Session
3.00 P.M -4.20 P.M	Technical Session
4.20 P.M-4.30 P.M	Valedictory session and prize distribution

Thanking you

WORLD WETLAND DAY

[Date - 2nd February, 2024 (Friday) Location – ROOM NO. 22A OF THE NEW BUILDING (DEPT. GEOLOGY)]

INTRODUCTION

This document serves as an introduction to World Wetlands Day, an annual event celebrated globally to raise awareness about the importance of wetlands. Established on February 2nd, the significance of this day lies in commemorating the adoption of the Ramsar Convention on Wetlands in 1971. Throughout the years, World Wetlands Day has evolved into a platform for highlighting the critical role that wetlands play in sustaining biodiversity, providing ecosystem services, and mitigating climate change. In this documentation, we will explore the history, significance, and themes of World Wetlands Day, shedding light on the challenges facing wetlands and the efforts undertaken to protect and conserve these valuable ecosystems. Through informative content and insightful analysis, we aim to contribute to the global conversation surrounding wetlands conservation and inspire action at local, national, and international levels.

PURPOSE

Purpose of organizing a competition for World Wetlands Day is multifaceted and aims to achieve several objectives:

Raise Awareness: The competition serves as a platform to raise awareness among students and the wider community about the importance of wetlands and the need for their conservation. By participating in the competition, individuals are encouraged to learn about wetland ecosystems, their significance, and the threats they face.

Foster Creativity: The competition provides an opportunity for participants to express their creativity and innovative ideas in addressing wetland conservation challenges. Through various formats such as art, photography, essay writing, or multimedia presentations, participants can explore different aspects of wetlands and propose unique solutions to protect and preserve them.

Encourage Engagement: By engaging students and the community in a competition focused on wetlands, organizers aim to foster active participation and engagement in conservation efforts. This involvement can inspire individuals to take action, both locally and globally, to safeguard wetland ecosystems and advocate for their protection.

Promote Collaboration: The competition encourages collaboration and teamwork among participants, as well as partnerships with schools, environmental organizations, and local communities. By working together towards a common goal, participants can leverage collective expertise and resources to generate impactful solutions for wetland conservation.

Celebrate Achievements: The competition provides a platform to celebrate the achievements and contributions of participants in raising awareness about wetlands and promoting conservation efforts. Winning entries can serve as inspiring examples and showcase the creativity and dedication of individuals and groups committed to protecting our planet's wetland ecosystems.

By organizing a competition for World Wetlands Day, organizers aim to harness the power of education, creativity, and collaboration to promote wetland conservation and inspire positive action towards the sustainable management of these vital ecosystems.

ORGANISER: - Organised by the Bhu-bigyan Sangathan, Department of Geology, Government College, Sundargarh.

SCHEDULE

TIME	PROGRAMME
2.30 P.M. to 3.00 P.M.	Inaugural Session
3.00 P.M. to 4.20 P.M.	Technical Session
4.20 P.M. to 4.30 P.M.	Valedictory Session & Prize Distribution

EVENT SUMMARY

World Wetlands Day event held at [Name of Venue] on [Date] was a resounding success, bringing together [Number] of participants from diverse backgrounds to commemorate the importance of wetlands conservation. The event featured a series of engaging activities and presentations aimed at raising awareness, promoting dialogue, and inspiring action towards the protection and sustainable management of wetland ecosystems.

Highlights of the event included:

Educational Presentations: Expert speakers delivered informative presentations on various aspects of wetlands, including their biodiversity, ecological functions, and significance for human well-being. Participants gained valuable insights into the importance of wetlands and the threats they face.

Student Competitions: Competitions involving students from local schools encouraged creativity and innovation in raising awareness about wetlands. Participants showcased their talents through art, poetry, essays, and multimedia presentations, demonstrating their commitment to wetland conservation.

CONCLUSION

As we conclude this event, it is imperative to reflect on the key messages and takeaways:

Wetlands are Vital Ecosystems: Wetlands are essential for maintaining biodiversity, regulating water cycles, mitigating climate change, and providing numerous ecosystem services that are indispensable for human well-being.

Wetlands Face Threats: Despite their importance, wetlands continue to face significant threats from habitat destruction, pollution, climate change, and unsustainable land use practices. The degradation of wetlands poses risks not only to biodiversity but also to human communities that rely on these ecosystems.

Action is Needed: Protecting and restoring wetlands requires collective action and commitment from governments, organizations, communities, and individuals. We must prioritize wetland conservation efforts and implement sustainable management practices to ensure the long-term health and resilience of these ecosystems.

Engagement is Key: Events like World Wetlands Day play a crucial role in raising awareness, fostering dialogue, and mobilizing action for wetland conservation. It is essential to continue engaging stakeholders and empowering communities to participate in efforts to protect and preserve wetlands.

Every Action Counts: Whether through advocacy, education, policy development, or on-the-ground conservation initiatives, every action taken to support wetlands contributes to the broader goal of safeguarding our planet's natural heritage.

Bhu-Bigyan Sangathan & Dept. of Geology, extends their sincere gratitude to all guests and attendees for making the event success
