

A Report on NSS Camp: 'Campus Cleaning Programme' on 12.02.2023

The NSS Camp on campus cleaning was officially inaugurated by Principal Dr. L. R. Sahu. The ceremony commenced with a formal welcome and an introductory speech by Dr. Sahu, who highlighted the importance of maintaining a clean and sustainable environment.

The event witnessed enthusiastic participation from 121 NSS Volunteers and students, demonstrating a strong commitment to the cause of campus cleanliness. The collective effort of these individuals reflects the spirit of community service and environmental stewardship that the NSS program aims to promote.

The campus cleaning programme was efficiently coordinated by Sri Nutan Khamari, the Coordinator of NSS at the institution. Sri Khamari's guidance ensured that the activities were well-organized and that all participants were effectively engaged in their respective tasks.

Volunteers were assigned different areas of the campus to collect litter and waste materials. This included picking up trash, disposing of recyclable materials properly and ensuring that no litter was left behind.

Specific attention was given to cleaning common areas such as pathways, gardens, and recreational spots. This included sweeping, mopping, and removing debris to ensure these spaces were welcoming and clean.

The programme successfully raised awareness about the importance of campus cleanliness and environmental responsibility among students. The educational components of the camp helped to reinforce these values.
