

## Action Taken Report Based on Student Feedback-2022-23

The recent feedback from students provides important insights into their experiences and satisfaction levels across various aspects of the college environment. This report details the actions the college administration has taken in response to this feedback, focusing on areas of high satisfaction and identifying steps to address any concerns.

### 1. Overall Learning Environment

To maintain and enhance the quality of inputs to the students to ensure continued academic progress by incorporating practical examples and real-life applications.

### 2. Basic Amenities

- **Internal Assessment**

To sustain the quality and fairness of the internal assessment by regular review of assessment methods and feedback mechanisms to attain the educational goals.

- **Hygiene Facilities**

Increased the frequency of cleaning and maintained the in high-traffic areas and upgraded hygiene products and facilities.

- **Smart Class and Computer Lab Facilities**

A proposal has been sent to the District Administration to convert more class rooms into smart class rooms with modern facilities through DMF fund.

A move is afoot for construction of a second Computer Lab to cater to the increasing needs of the students.

- **Availability of Books in the Library**

Expanded the library's collection to include more text books through govt. grant.

### 3. Syllabus Coverage

Reviewed syllabi and course completion regularly by the academic bursar to ensure that all topics were covered effectively. Adjusted course plans as per academic requirement of the students.
