

Action Taken Report on Student Feedback

1. Overall Learning Environment (Skills, Knowledge, Analytical Abilities):

- **Feedback Summary:**

92% of students expressed high satisfaction with the overall learning environment, including skills development, knowledge acquisition and analytical abilities gained from the course.

- **Action Taken:**

The faculty and administration acknowledge the positive feedback regarding the learning environment. The college will continue to foster a comprehensive learning experience and look into incorporating emerging teaching methods and technologies to enhance skills, knowledge, and analytical abilities. Regular workshops and student engagement programs will be conducted to keep students' learning experiences dynamic and aligned with current industry standards.

2. Basic Amenities (Internal Assessment Scheme, Hygiene Facilities, Smart Classes, Computer Lab Facilities, Availability of Books in the Library):

- **Feedback Summary:**

- 91% are highly satisfied with the **Internal Assessment Scheme**.
- 64% are highly satisfied with **Hygiene Facilities**.
- 79% are highly satisfied with **Smart Class and Computer Lab Facilities**.
- 78% are highly satisfied with **Availability of Books in the Library**.

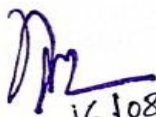

- **Action Taken:**

- **Internal Assessment Scheme:** Given the high satisfaction rate, no major changes are required. The assessment scheme will be maintained and continuous monitoring will ensure its relevance and effectiveness.
- **Hygiene Facilities:** While 64% satisfaction is a positive result, there is room for improvement. Immediate actions will be taken to improve hygiene facilities across the campus. This includes increasing the frequency of cleaning, upgrading sanitation facilities and ensuring that cleanliness is maintained consistently in all areas of the campus.
- **Smart Class and Computer Lab Facilities:** 79% satisfaction indicates a positive response, but efforts will be made to enhance these facilities further. The college will explore upgrading equipment, ensuring that the latest technology is available for students, and offering additional training on using smart class features and computer lab resources.
- **Library Books Availability:** The satisfaction rate of 78% suggests there is still room for improvement. The college will conduct a review of the library's collection and increase the availability of books, particularly in areas identified as having higher demand.

3. Effective Communication and Interaction between Students and Teachers:

- **Feedback Summary:**

- 93% of students are highly satisfied with **effective communication** between students and teachers.
- 89% of students are highly satisfied with **student-teacher interaction**.
- 93% of students are highly satisfied with the **ability of teachers to answer questions**.
